Letter of Recommendation for Christian Dohrmann

I have known Mr. Dohrmann for over a year, and for much of this time supervised him with regard to a wide variety of youth projects and related work.

Mr. Dohrmann impressed me with his commitment to getting jobs done and his strategic thinking, as well as his capacity to use creative skills and make project work innovative and appealing to diverse stakeholders.

Mr. Dohrmann was particularly effective at project coordination with regard to work on the youth-led Sustainable Bangkok Campaign, for which he was the main driving force. He was very competent in liaising with partners from government, academia, civil society and other United Nations bodies. He also excelled in designing the strategy and activities of the project.

Other work in which he provided valuable support included research (both qualitative and quantitative) into youth exclusion, conceptualization of a youth policy toolbox for an online facility, and making a video for the commemoration of International Youth Day 2015.

All told, I fully support Mr. Dohrmann in his application for further studies and work and would be glad to offer additional information if it were deemed necessary.

Yours sincerely,
